**BLACK DIAMOND CITY COUNCIL
SPECIAL MEETING MINUTES**

July 26, 2018

Council Chamber, 25510 Lawson Street, Black Diamond, Washington

CALL TO ORDER, FLAG SALUTE:

Mayor Benson called the special meeting to order at 6:00 p.m. and led us all in the Flag Salute.

ROLL CALL:

PRESENT: Councilmembers Deady, Oglesbee, Edelman, Stout and Wisnoski. (Councilmember Oglesbee was not present during roll call and entered the meeting at 6:01 p.m.)

ABSENT: None

Staff present were: Mayene Miller, Finance Director; Seth Boettcher, Public Works Director; Barbara Kincaid, Community Development Director; Andy Williamson, MDRT/EC Dev Director; Chief Barlow; Rob Reed, IS Manager; and Brenda L. Martinez, City Clerk.

1) 2019-2024 Capital Improvement Plan – General Government Portion

Mayor Benson welcomed everyone and stated that tonight we are reviewing the general government portion of the CIP and we will be going out of order and starting with the IT pages.

Administration General Government

IS Manager Reed reviewed with Council the Technology needs for the City over the next six year. They included, phones, PC hardware, PC software, network hardware, security, server hardware, server software, disaster recovery, and audio and video needs. He also discussed the replacement schedule for computers and tablets for Councilmembers and noted technology being properly funded.

- G1 - City Technology

Finance Director Miller reviewed the following projects with Council.

- G2 – General Facility Improvements
- G3 – Gym/Way Finding Signs

Review of summary page for Administration General Government projects.

Parks Department

Public Works Director Boettcher reviewed the following park projects:

- P1 – Ginder Creek Trail and Site Restoration
- P2 – Grant Matching Funds
- P3 – Parks Comprehensive Plan Update
- P4 – Boat Launch Park Shoreline Stabilization
- P5 – New Niche Wall at the Cemetery
- P6 – Rehabilitate East Ginder Creek Property
- P7 – Rec Center HVAC – There was discussion to change the words Rec Center to Gym and also about moving this project to 2019 and moving another project out.
- P8 – Lake Sawyer Park Boat Launch Pay Station
- P9 – Skate Park Reconstruction

Review of summary page for the parks department projects.

Fire Department

Chief Barlow reviewed the following fire department projects:

- F1 – Replace Reserve Engine (1986)
- F2 – Replace SCBA and Defibrillator
- F3 – Replace Primary Fire Engine (2000)
- F4 – Replace Aid Car (1994)
- F5 – Lawson Hills Fire Station, Vehicles & Equipment

Review of summary page for the fire department projects.

Police Department

Finance Director Miller reviewed the following police department projects:

- L1 – Patrol Car Replacement Plan
- L2 – Police Radio Replacement

Review of summary page for the police department projects.

In closing, Finance Director Miller reviewed the summary page for all the general government projects and noted that fire has the most cost, however some of that is developer funded. She also noted evening out the spending yearly and in this plan the spending is about \$200,000 per year. She then shared her formula for forecasting unit sales and reviewed the calendar for the Capital Improvement Plan stating a public hearing will be held on August 2nd with adoption anticipated to occur at the August 16 regular business meeting.

ADJOURNMENT:

Councilmember Deady **moved** to adjourn the meeting; **second** Councilmember Edelman. Motion **passed** with all voting in favor (5-0).

The meeting ended at 7:53 p.m.

ATTEST:

Carol Benson, Mayor

Brenda L. Martinez, City Clerk

BLACK DIAMOND CITY COUNCIL MINUTES
Council Meeting of August 2, 2018
Council Chamber, 25510 Lawson Street, Black Diamond, Washington

CALL TO ORDER, FLAG SALUTE:

Mayor Benson called the regular meeting to order at 7:00 p.m. and led us all in the Flag Salute.

ROLL CALL:

PRESENT: Councilmembers Deady, Oglesbee, Edelman, Stout, and Wisnoski.

ABSENT: None

Staff present: Seth Boettcher, Public Works Director; Kevin Esping, Facilities Manager; May Miller, Finance Director; Fire Chief Smith and Brenda L. Martinez, City Clerk.

AGENDA REVIEW AND APPROVAL:

Councilmember Deady **moved** to adopt the agenda; **second** Councilmember Deady. Motion **passed** with all voting in favor (5-0).

CONSENT AGENDA:

Councilmember Edelman **moved** to adopt the Consent Agenda; **second** Councilmember Deady. Motion **passed** with all voting in favor (5-0). The Consent Agenda was approved as follows:

- 1) **Claim Checks** – August 2, 2018 – Check No. 46434 through 46487 in the amount of \$268,018.01
- 2) **Minutes** – Regular Work Session of July 12, 2018, Special Meeting of July 19, 2018 and Council Meeting of July 19, 2018

PUBLIC COMMENTS:

Olivia Cronin, Black Diamond spoke to Council.

PUBLIC HEARINGS:

- 3) **AB18-069** – Proposed Draft 2019-2024 Capital Improvement Plan

Finance Director Miller reported to Council on this item.

Mayor Benson opened the public hearing at 7:07:30 p.m. No public testimony was heard and the hearing was closed at 7:07:41 p.m.

NEW BUSINESS:

- 4) **AB18-070** – Resolution No. 18-1258 Accepting Proposal from Wilbert Precast, Inc. for Two Cemetery Niches

Public Works Director Boettcher addressed this item.

There was Council discussion.

Councilmember Edelman **moved** to adopt Resolution No. 18-1258 accepting the proposal from Wilbert Precast, Inc. to fabricate and install two 24-unit columbarium walls at the cemetery; **second** Councilmember Wisnoski. Motion **passed** with all voting in favor (5-0).

DEPARTMENT REPORTS:

Fire Department – Chief Smith shared with Council that in July there were 66 incidents and 68% of those were EMS, with no fire loss in the City. He also noted that equates to 2.1 incidents per day; currently there are 6.5 incidents per day in the whole district. He discussed that as the population increases with the different type of housing incidents will go up. He also discussed hiring within the department and the process used. He reminded everyone that National Night Out is next Tuesday, August 7 and they will have an engine out in the City.

MAYOR'S REPORT:

Mayor Benson reported on the first coalition meeting with the cities of Covington, Issaquah, Maple Valley, and Black Diamond regarding growth projections and transportation; she noted attending the Hometown Social at Ten Trails, ribbon cutting ceremony at the new Lumber House Brewery in town; attended Officer Diego Moreno's memorial service and shared how well attended and planned it was. She discussed with Council that staff does not have a topic for next Thursday's regular work session and asked Council if they did. Following discussion there was Council consensus to cancel the work session on August 9, 2018.

COUNCIL REPORTS:

Councilmember Oglesbee reported attending the Work Session on the 26th and the Public Safety Committee meeting. She shared that there are four weeks left before the Black Diamond Labor Days event and asked for volunteers.

Councilmember Edelman reported attending the Hometown Social at Ten Trails and touring the Lennar model homes; participated in the Covington parade, attended the Parks and Cemetery Committee meeting, ribbon cutting ceremony at the new brewery, SCA Forum on cyber security, moving food from Grace Church to St. Barbara's for the Wednesday night free meals, and added there will be no PIC meeting in August.

Councilmember Stout reported attending the Capital Improvement Plan work session, Hometown Social, and the Budget and Finance Committee meeting where items on tonight's agenda were discussed and reviewed.

Councilmember Wisnoski reported attending the Hometown Social, Parks and Cemetery Committee meeting where items 3 and 4 on tonight's agenda were discussed. He also went on a tour of the City's water system and noted it being interesting to see the technology that is used. He also commented that he stopped by the new Lumber House Brewery.

Councilmember Deady reported attending the Hometown Social and shared the Community-wide yard sale is the 2nd week in August and for those who do not want it at their residence there will be an area at the gym for residents to set up. She attended the Finance Committee and Public Safety Committee meetings where the discussion was about Fireworks and CERT training and the need to get a list together and merge it with the City's Emergency Management Program. In closing she shared watching Officer Moreno's funeral and stated the speakers were amazing and gave her condolences to the family.

ATTORNEY REPORT: None

PUBLIC COMMENTS:

Shane Cronin, Black Diamond spoke to Council.
Robbin Taylor, Black Diamond spoke to Council.
Gary Davis, Black Diamond spoke to Council.
Kristen Bryant, Bellevue spoke to Council.

EXECUTIVE SESSION: None

ADJOURNMENT:

Councilmember Edelman moved to adjourn the meeting; second Councilmember Oglesbee. Motion passed with all voting in favor (5-0).

The meeting ended at 7:53 p.m.

Timeline:		
Agenda Placement: ☒ Mayor ☐ Two Councilmembers ☐ Committee Chair ☐ City Administrator		
Attachments: Resolution; Proposed 2019-2024 Capital Improvement Plan		
Summary: The Resolution included adopts the 2019-2024 Capital Improvement Plan totaling \$38,959,359, with 87% for Public Works projects, 92% of that total primarily for Street and Water projects. Mayor Benson and Staff began working on the Capital Improvement Plan update in the spring of 2018. The 2019-2024 Capital Improvement Plan (CIP) includes the City’s plans for the next six years for capital needs such as: water pipes, parks, trails, city facilities and Police and Fire Equipment as well as water, sewer and stormwater improvements. Council workstudy meetings were held on July 12, 2018 and July 26, 2018. A public hearing was held at the Regular Council meeting of August 2, 2018 The 2019-2024 Capital Improvement Plan needs to be adopted by Resolution, so departments can refer to this resolution number when they apply for Grants. This Plan Resolution will also serve as a more detailed update to the City Comprehensive plan. This is a plan, not a budget document. The 2019 Capital projects will each be reviewed again before they are included int the 2019 Budget. Copies of the 2019-2014 Capital Improvement Plan can be found of the city web site: www.ci.blackdiamond.wa.us. FISCAL NOTE (Finance Department): Each Capital Project includes both the expenditures as well as the expected revenue source.		

COUNCIL COMMITTEE REVIEW AND RECOMMENDATION: Council reviewed the 2019-2024 Capital Plan at two workstudy meetings, noted above.		
RECOMMENDED ACTION: MOTION to approve Resolution 18-1259 adopting the 2019-2014 Capital Improvement Plan.

RESOLUTION NO. 18-1259

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY
OF BLACK DIAMOND, KING COUNTY WASHINGTON,
ADOPTING A CAPITAL IMPROVEMENT PLAN FOR
THE YEARS 2019-2024**

WHEREAS, the City of Black Diamond is required by State law and Chapter 3.60 of the Black Diamond Municipal Code to prepare and adopt a multi-year plan, that contains the City's future Capital Improvement Projects and the recommended methods of funding those projects; and

WHEREAS, the City's Capital Improvements Plan has been updated to address the current capital facilities needs and priorities of the City for the years 2019-2024; and

WHEREAS, the City Council has held work session meetings on July 12, 2018 and July 26, 2018; and a public hearing on August 2, 2018; and

WHEREAS, the update is also supplemental information to the Capital Element portion of Black Diamond's Comp Plan for Transportation, Water, Sewer, Stormwater and other Capital Elements;

**NOW, THEREFORE THE CITY COUNCIL OF THE CITY OF BLACK DIAMOND
HEREBY RESOLVES AS FOLLOWS:**

Section 1. The City Council does hereby approve the 2019 – 2024 Capital Improvement Plan, a copy of which is attached as Exhibit "A" and incorporated herein by reference.

ADOPTED by the City Council at an open meeting on the 16th day of August 2018.

Carol Benson, Mayor

Overview of the Capital Improvement Program

What is the Capital Improvement Program?

The Capital Improvement Program (CIP) is a plan that lays out a six-year road map identifying present and future capital and infrastructure needs for the city. It is an investment in the future of our community.

Because the CIP is a plan rather than a budget, actual authorization for capital project spending for the upcoming year occurs when City Council adopts the Annual Budget in December.

Having the long range capital plan completed before the annual operating budget is developed helps management better incorporate both short and long term planning.

For each project there is an estimated start and completion date that has been projected by the city department in charge of the improvement. The CIP also defines the total cost of the project and the amount allocated to the project for each year of the plan.

Examples of projects in Black Diamond's six-year CIP include street rehabilitation, water projects, wastewater facilities, park improvements, a fire station and equipment, police capital facility needs, and general facility capital needs and improvement.

How are projects in the Capital Improvement Plan paid for?

The CIP process involves balancing desired capital improvements that compete for scarce financial resources. Generally, funding for capital improvements is provided through Real Estate Excise Tax revenue (REET), capital reserves, public trust fund loans, grants, impact fees and developer funding.

Real estate excise taxes (REET) are collected from property sales within the city limits and are earmarked specifically for capital projects. However, in order to spend that money, a jurisdiction must have the project identified in a Capital Improvement Plan. So not only is the CIP a great overall planning tool for the city, it is also required to access REET monies.

Additionally, historical documentation of need is usually required when applying for grants. This need is documented in the CIP, as some projects get 'pushed out' from one year to the next due to lack of adequate funding.

Types of Capital Projects

Capital projects are essential to the delivery of many of Black Diamond's core services. The capital projects in each major department are described below.

- Transportation The road system in Black Diamond is a vital infrastructure to city residents, visitors and commuters. This infrastructure includes roads, bridges, bike lanes and sidewalks. The responsibility for the funding and construction of transportation infrastructure is usually shared with developers in the form of impact fees, as new development has need for additional transportation improvements. Most of the funding for street improvement comes from grants.
- Parks and Recreation There are regional and local parks in Black Diamond as well as bike and hiking trails, a skate park and a BMX Course. Outdoor enthusiasts choose to live in Black Diamond for the natural beauty of the surroundings and sporting opportunities. Park facility improvements are primarily financed by grants, real estate excise taxes and developer contributions. A Comprehensive Parks Plan Project is part of this CIP.
- Utilities The city provides water, sewer and stormwater utility services to residents and businesses. Capital Facilities include water sources, facilities, reservoir, water lines, sewer treatment facilities, transmission systems and storm water detention facilities and culverts. Developers contribute to these projects, as growth requires infrastructure expansion. Utility fund reserves, grants, loans and real estate excise taxes also provide funding for utility capital projects in Black Diamond.
- Public Safety Capital facilities and equipment are required to deliver core city services of Police and Fire. These facilities include the fire and police stations, vehicles and major equipment and technology. Funding for these capital projects comes primarily from impact fees, developer funding, grants and real estate excise taxes.
- General Government Capital The city is responsible for funding the construction and maintenance of general capital facilities such as city buildings, vehicles and technology. These costs are primarily funded by real estate excise taxes in this CIP.

Level of Service

The number and type of capital facilities needed to serve Black Diamond is directly related to the level of public service provided. The level of service is established by City Council and the City's Comprehensive Plan.

Maintenance and Funding Constraints

Once completed and placed in service, capital facilities must be maintained. Funding for the maintenance of capital projects for City Utilities are funded with user fees in the respective operating budgets. Maintenance funding for projects are funded through current operations, not the capital budget. For that reason, the availability of funding for future maintenance must be considered when preparing the capital budget.

Development and Approval Process

The Capital Improvement Plan is updated biennially. Individual projects are submitted by department directors. They use a template provided by Finance staff. These requests include an update of current projects and projections on new projects and anticipated costs. Each project must have specific funding sources identified.

The Mayor, Finance Director and management meet to balance projects to available funding. Council workstudy sessions occur and a public hearing encourages public input. The proposed plan is then brought before Council for approval. This approved CIP then becomes an update and amendment to the capital facility portion of the City's Comprehensive Plan.

PW Facilities and Equipment

A1

Public Works Facility Improvements

DESCRIPTION

With more equipment, more record keeping needs, growing staff, need for materials handling site, more operations office work, more equipment repair space needs, more dry storage needs and meetings/training room needs, improvements to the Public Works Facilities will be needed.

BACKGROUND

This infrastructure need is proposed as a step by step improvement to the PW facilities rather than a major one time improvement. In the past the city has added the equipment wash facility, new doors and dividing wall for better use of the ware house, new roof on the warehouse and the shop and added employee offices and lunch room space.

Equipment Replacement Program

DESCRIPTION

Replace and purchase new equipment as needed for the Public Works Department needs, with regular, fairly distributed, expenses to the various departments.

BACKGROUND

The current funding level which has been in place for about 10 years appears to be enough to meet the current needs of the department. No adjustments are currently being recommended.

Street Department

T1

General Street Improvement

13.10

DESCRIPTION

Street Maintenance. Annually the Public Works staff assesses the street system and selects key street preservation and improvement work. Typical activities under this project are chip sealing, crack sealing, patch work and addressing minor safety problems.

BACKGROUND

This project provides annual funding for minor street improvements that typically do not require engineering.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024
Construction Costs	180,000	30,000	30,000	30,000	30,000	30,000	30,000

T2

Grant Matching Fund

13.03

DESCRIPTION

This project is used to accumulate funds for a match for grants for street and pedestrian projects now scheduled in the CIP.

BACKGROUND

The city has used this fund for professional technical assistance with grant applications and supplement funding if a grant is received for a project that needs to be moved up in the CIP schedule or if a larger match than anticipated is needed.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024
Funding to Match Grants	240,000	40,000	40,000	40,000	40,000	40,000	40,000

REQUESTED FUNDING							
Real Estate Excise Tax II	240,000	40,000	40,000	40,000	40,000	40,000	40,000
TOTAL SOURCES	240,000	40,000	40,000	40,000	40,000	40,000	40,000

What is a matching grant?

A matching grant is a contingent grant awarded only if the receiving entity is able to put up (or independently raise) a sum equal to the amount provided by the granting entity.

Roberts Drive Improvements - 236th to Bruckners

DESCRIPTION

Street Reconstruction. This project links existing sidewalks on the south side of Roberts Drive with existing sidewalks ending at 236th Ave. SE and at Bruckners Way. This project would install a pedestrian crossing at Rock Creek, make some upgrades to the existing Rock Creek Bridge, install pedestrian lighting, and pave a small portion of the eastbound lane of Roberts Drive between the bridge and Bruckners Way. City costs for the design efforts in 2018 will meet the match requirements for TIB funding.

BACKGROUND

Design will be complete in 2018 and the city is seeking construction funding for 2019.

SR 169 Roundabout

13.02

DESCRIPTION

Capacity Adding Project. This project is to change the intersection control from stop control to one roundabout and accommodate future road connections to the east for the Lawson Hills Master Planned Development and a new road to the west for the Ten Trails Development.

BACKGROUND

The existing intersection has a higher accident rate than the average along the corridor. Roberts Drive intersects SR 169 at an angle which makes it difficult for east bound motorists to turn left and west bound motorists on Ravensdale to turn left; This intersection has been identified as one of the first traffic mitigation projects that is required in the Master Planned Development FEIS.

COMMENTS

Because the city has had an existing deficiency at these intersections, the city in the development agreement has an obligation to seek grant funding to assist with moving these intersection improvements forward.

Park St. and SR 169 Intersection Safety Improvements

DESCRIPTION

This project would either close the Park Street access on the west side of SR 169 or close particular turning movements as recommended by the city's traffic engineer.

BACKGROUND

Traffic concurrency (mitigation) funds were received from the Enumclaw School District as part of the Black Diamond Elementary project to deal with the safety problem at this intersection.

Downtown Public Parking

DESCRIPTION

Develop additional public parking in the downtown area of Baker Street and Railroad Ave.

BACKGROUND

Most of the existing buildings in the Railroad Ave area were constructed without off street parking lots other than the Eagles Hall. This area is zoned "Town Center" which does not require off street parking with the development of the property. There currently is a deficiency in available parking to support the existing businesses. The scope of this project will be refined in the initial preliminary engineering phase. In the preliminary phase of this project the city will compare several options for expanding parking in the area.

SR 169 - James Street to Roberts Drive Sidewalk

14.02

DESCRIPTION

Create a pedestrian link between James Street and Roberts Drive along SR 169 on the west side of the road.

BACKGROUND

This 6-foot wide sidewalk would provide a link to the downtown area and the north commercial area.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024
Design & Bid Docs	140,000			140,000

216th Avenue SE Overlay

DESCRIPTION

Major Street Maintenance. Patch and overlay 216th Ave. SE from SE 288th St. to SE 296th St. Chip seal may be an option in this location.

BACKGROUND

The pavement condition is average to poor. The roadway width and side improvements vary. The engineering, bid process, inspections and project management will be provided by city staff. This is a heavy traffic area project.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024
Engineering & Bid Docs	20,000					20,000

TOTAL SOURCES	180,000					180,000	

Morgan Creek Pedestrian Connector

DESCRIPTION

Pedestrian link from the backside of the Morgan Creek neighborhood to SR 169.

BACKGROUND

This project would provide a pedestrian connection for the residents of the Morgan Creek neighborhood to the commercial area along SR 169. Sidewalks along the county-owned Black Diamond-Ravensdale Road are not a cost-effective option.

COMMENTS

Commercial development along the east side of SR 169 is becoming more probable. Commercial developers along the east side of SR 169 will be required to construct pedestrian connection as part of frontage improvements.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024

Roberts Drive Rehabilitation - Library to SR 169

14.02

DESCRIPTION

Major Street Maintenance from the Library to SR 169 (3000 ft.). Seal joints and cracks; Plane the concrete to a smooth surface; Install fabric to minimize reflective cracking; Widen shoulders; Asphalt overlay; install sidewalks and street lights from Library to SR 169.

BACKGROUND

The concrete roadway is about 100 years old but needs repair work. This project will be the final phase of work on Roberts Drive between the western city limits and SR 169.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024

224th Guardrail @ Cov Creek

DESCRIPTION

Safety Project. This safety project is to install guard rail on both sides of the road at the Covington Creek culverts on 224th Ave SE. This project would be an interim solution until this project could be combined with a larger culvert replacement project that could result in a bridge at this location.

BACKGROUND

Staff and the committee determined that guard rails at Covington Creek would provide a greater risk reduction for errant vehicles than the Abrams project which was dropped when priorities shifted.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024

Downtown Pedestrian and Bicycle Link Study

DESCRIPTION

Pedestrian Project: This study will identify the best routes for pedestrians and bicycles to connect to the north and south of the old downtown area and identify right of way acquisition if needed.

BACKGROUND

The existing right of way for the state route is inadequate for widening to accommodate additional lanes along with pedestrian and bicycles. The study will investigate various bypass routes and key connection points, and provide opportunities for public input. Once the city has approved a pedestrian and bicycle plan for the downtown area the city will be in a better position to seek funding for these important alternative mode connections.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024

Baker Street Sidewalk

14.02

DESCRIPTION

Sidewalk on Baker Street between Railroad Avenue and 3rd Avenue/SR 169. This sidewalk would help link the senior housing development with the core downtown area.

BACKGROUND

Additional sidewalk connections in the historic downtown area would make the downtown more walkable in order to visit businesses, the museum, and the post office. It may be necessary to break this project into two phases in order to be more competitive for grant funding.

CAPITAL PROJECT COSTS	Total \$ 2019 -2024	2019	2020	2021	2022	2023	2024

Springs & Transmission Reconstruction (WSFFA)

13.06

DESCRIPTION

This project will protect and rehabilitate the existing open springs, replacing pipes over the steep slope, and reconstructing the river crossing. This will include a new pumping system and replacing the transmission main back to Black Diamond.

BACKGROUND

In late 2013, the city contracted with RH2 to study and compare two alternative concepts to improve and redevelop the springs to full water right capacity. The Springs Alternative Analysis Study recommended that the city pursue tapping an artesian spring on the north side of the river rather than reconstructing the spring collection system on the south side. After discussions with the Department of Health and Department of Ecology, it was determined that the city could not transfer its water right to the north side of the Green River, leaving the city to only withdraw water from the current location.

COMMENTS

This is a capacity and system reliability project funded by the Water Supply and Facilities Funding Agreement (WSFFA).

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Fire Flow Loop - North Commercial Area

13.08

DESCRIPTION

Replace 200 feet of 4 inch asbestos concrete with 12 inch ductile iron water main across SR 169 at the power substation; complete a 750 foot 12 inch ductile iron water main loop from Cedar Brook Mobile Home Park to the 6 inch asbestos water main behind Boots Tavern. Replace 1,200 feet of 8 inch asbestos water main on the west side of SR 169 from Ravensdale Road north to the existing 12 inch ductile iron water main. There will be 2,150 feet of 12 inch water main in total.

BACKGROUND

This is a capacity and system reliability project. Other commercial properties development along SR-169 may also be contributing or constructing portions of this project, if required through SEPA. This project can easily be phased if funding is short.

COMMENTS

This project does not describe what is needed to provide fire flow and redundant service to the north triangle but rather is the minimum to provide a looped system for the north part of the existing city system. This project is being moved up in priority in order to install the 12 inch water mains through the Roberts and Ravensdale intersections before the roundabouts are constructed.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

4.3 Mil Gal Tank Maintenance & Repairs

14.11

DESCRIPTION

The 4.3 million gallon water tank will be 13 years old in 2019. The interior will need **inspection**. The exterior will need **cleaning** and potentially **spot treatment** where the coating is damaged.

COMMENTS

While this project is a maintenance project, the work does extend the life of the coating by 10 years or more and therefore is included in this Capital Improvement Plan

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Asbestos Water Main Replacement Program - Morganville South

17.13

DESCRIPTION

Replace 4 inch asbestos and 2 inch cast iron water main on Morgan Drive from Roberts Drive to the south end of Morgan Drive, connecting to an existing 8 inch main on Buena Vista Drive, and on Union from Buena Vista Drive to approximately 230 feet south of Roberts Drive, a total of approximately 1630 feet.

BACKGROUND

This project will improve fire flows to the Morganville area and replace substandard pipe that is nearing its useful performance life. An income survey will be required to determine eligibility for Community Development Block Grant Funding.

COMMENTS

Further future study of the existing asbestos water mains may show that a different asbestos water main should be replaced than this particular water main. Leak history, street reconstruction projects, pavement condition, developer improvements and asbestos pipe strength tests may change the priority of the asbestos pipe to be replaced.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Asbestos Water Main Replacement Program - Morganville North

17.13

DESCRIPTION

Replace 4 inch and 6 inch asbestos water main on Morgan Drive from Roberts Drive to the north end of Morgan Drive, east to Union and then south 350 feet to the existing ductile iron pipe, for a total of 1,600 feet.

BACKGROUND

This project will improve fire flows to the Morganville area and replace substandard pipe that is nearing its useful performance life. An income survey will be required to determine eligibility for Community Development Block Grant Funding.

COMMENTS

Further future study of the existing asbestos water mains may show that a different asbestos water main should be replaced than this particular water main. Leak history, street reconstruction projects, pavement condition, developer improvements and asbestos pipe strength tests may change the priority of the asbestos pipe to be replaced.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

0.5 MG Water Reservoir Recoat

DESCRIPTION

Repaint the 0.5 MG reservoir inside and out. This project would also add equipment for water mixing in the tank to eliminate stagnation and to insure chlorine residuals remain at optimum levels prior to distribution.

BACKGROUND

The city drained and inspected the interior of the water tank in 2015. The interior coating has deteriorated to a point where total replacement is needed. If the developer were to move forward with development above this reservoir, it may be a better solution to rebuild the storage capacity up above at a higher elevation. However the lower reservoir would need to last until the higher one is built.

COMMENTS

This project may be pushed out a few more years waiting for the development schedule for Lawson Hills in order to make a decision to defer the project for a few more years or move forward and paint the tank and preserve it.

Pacific Street Water Line Loop

DESCRIPTION

Construction of 1,200 lineal feet of 8 inch ductile iron water line from the intersection with Pacific Ave to Old Lawson Road to provide system looping.

BACKGROUND

The homes on 5th Ave, Pacific Ave Pacific Street and Old Lawson are all on dead end lines which can cause water quality issues, reduces fire flow and can cause interruption of service to more people when a water main needs to be shut down for service.

COMMENTS

Easements will be needed to complete the water line loop.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Second Intertie with City of Tacoma

DESCRIPTION

Design and work with the City of Tacoma for a second intertie in the western portion of the city. Tap the Tacoma Pipeline and install an 8 inch meter, valves, vaults and telemetry system along Lake Sawyer Road.

BACKGROUND

As the Ten Trails area continues to grow, additional water transmission capacity will be needed to serve western Black Diamond.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

SCADA System Improvements

DESCRIPTION

The city needs to update the SCADA (Supervisory Control and Data Acquisition) system for the water and sewer system from time to time. This project sets aside funds so that as needs come up the Public Works Operations staff can update software, computers, communication systems or upgrade the Programmable Logic Controller as needed rather than delaying needed improvements for a bigger project to be defined, budgeted, and implemented. This set aside strategy will assist the city with smoothing out the budgeting to the needs and keep the operations more reliable with lower malfunction risks.

BACKGROUND

The city's water has a system of pump controllers, computers, software and communications systems that operates, monitors, sends alarms and collects data on our water and sewer system. This project proposes to upgrade components of the overall system as needed going forward. Some years expenses may be minimal but as the funds are rolled over, the city will be able to afford the upgrades with less single year budget impact.

COMMENTS

In 2018 the city in partnership with the Master Planned Developer is upgrading the SCADA system to accommodate a new sewer pump station in Ten Trails as well as upgrading the city's existing system that is outdated and no longer supported. The 2018 improvement will bring the city up to date with current technology, hardware and software.

Morgan Street AC Water Main Replacement, Ph. I

DESCRIPTION

Replace 1,155 feet of old 6 inch asbestos water main from Miner Ave to the Arboretum Short Plat with a 12 inch water main.

BACKGROUND

The city recently completed the downtown water main improvements and this would continue improvements down Morgan Street. The remainder of Morgan Street will be completed in the future.

Sewer Department

S1

Cedarbrook Sewer Main

13.11

DESCRIPTION

Acquire city easement through the mobile home park, if needed. Rehabilitate or reconstruct the existing sewer main to provide reliable public sewer service to the customers in the north east portion of the city.

BACKGROUND

This project is necessary to reduce infiltration and inflow and to eliminate the maintenance problems caused by the settled sections of sewer main.

COMMENTS

Portions of the existing sewer main will have to be reconstructed while other sections might just be repaired. The budget has been increased to reflect the cost of reconstructing a portion of the sewer. A 20 year Public Works Trust Fund Loan will generate a debt payment of \$13,853.83 per year at 1%.

Morganville Force Main Reroute

13.12

DESCRIPTION

Reroute the flows from the Morgan Street Sewer pump station from pumping to the Jones Lake Pump Station to pump to the new King County western storage facility. The new force main will be about 3500 feet from Morgan Street west along Roberts Drive and northwest along Lake Sawyer Road East.

BACKGROUND

This project was programmed to provide capacity for infill in the old part of Black Diamond in the Jones Lake Pump station and save energy from pumping sewage twice. The need has diminished because of the King County approval of a regional discharge location in the western part of Black Diamond, and more than adequate trunk line capacity verified in the main trunk line to the Jones Lake Pump Station. The priority of this project will also be affected if Infiltration and Inflow can be reduced further.

COMMENTS

Developers may want to assist with funding this project in order to temporarily discharge out of basin flows to the Jones Lake Pump Station.

Diamond Glen Pump Station Decommissioning

13.12

DESCRIPTION

Remove pumps and equipment and install gravity sewer main to tie into new sewer mains from Master Planned Development to the west.

BACKGROUND

Once the development to the west moves forward, the city will have the opportunity to eliminate this small sewer pump station by tying the sewer main in Diamond Glen to gravity sewer mains to the west.

COMMENTS

This project will save maintenance expense and remove surface facilities in the front yard of two homes.

North Commercial and SR 169 Stormwater Treatment Pond

13.15

DESCRIPTION

Construct a stormwater treatment facility for the stormwater discharge coming off Park Street. This stormwater discharge is the second highest priority to get treated because of the size of the discharge and the pollutants coming off the state route and the old downtown area.

BACKGROUND

Whereas there is a total maximum daily load (TMDL) on Lake Sawyer for phosphorous, the city should look for opportunities to reduce phosphorous inputs from existing untreated stormwater discharges. Stormwater outfall discharges from the commercial area and the state route appear to have the highest pollutant loadings as compared to other city stormwater outfalls.

COMMENTS

The city has completed a partial design for a treatment facility on city property on Roberts Drive. However it appears that combining this stormwater project with the roundabout project can substantially reduce costs and meet all the goals of the project.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Ginder Creek Headwall

14.16

DESCRIPTION

Reconstruct an 80 foot section of the Ginder Creek Headwall along the north side of Roberts Drive.

BACKGROUND

The base of the existing concrete headwall was not constructed deep enough so that high flows in Ginder Creek have undermined the headwall, destabilizing the wall. The headwall has been slowly tilting into the Creek. Staff has braced the headwall as an interim step to hold the wall in position.

COMMENTS

This project is needed to protect the roadway and prevent the erosion that would occur if the headwall tipped over. A significant amount of the cost of this project will be related to environmental permitting. This project may get rolled into a larger street reconstruction project if street grants are obtained for this road segment.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

TOTAL SOURCES	150,000		55,000	95,000			

Covington Creek Culverts

13.14

DESCRIPTION

Construct a stormwater treatment facility for the stormwater discharge coming off Park Street. This stormwater discharge is the second highest priority to get treated because of the size of the discharge and the pollutants coming off the state route and the old downtown area.

BACKGROUND

The summer 2012 inspections found the culverts are nearing the end of their useful life and have serious corrosion and pitting in the lower third of the culverts and a few areas where corrosion has opened holes in the culvert. The three culverts divide the small summer flow leaving only a small amount of water for fish passage. The city began design on a concrete box culvert but found there were too many conflicts to make that replacement work.

COMMENTS

It is highly unlikely that the city would be able to come up with the funding for a bridge alternative (early estimate \$2,000,000). This project refocuses the city's funding to address the impending problem of the deteriorating culverts and improving fish passage.

Basin Study

DESCRIPTION

Construct a stormwater treatment facility for the stormwater discharge coming off Park Street. This stormwater discharge is the second highest priority to get treated because of the size of the discharge and the pollutants coming off the state route and the old downtown area.

BACKGROUND

In recent years there are numerous needs and issues related to Lake Sawyer, stormwater and the environment that are unfunded. With better information and a potential funding plan an informed policy decision could be made.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Lawson Hills Stormwater Ponds

DESCRIPTION

Construct a stormwater treatment facility for the stormwater discharge coming off Park Street. This stormwater discharge is the second highest priority to get treated because of the size of the discharge and the pollutants coming off the state route and the old downtown area.

BACKGROUND

The original intent of these storm ponds was to provide joint use for homeowner association provided recreation facilities and city provided stormwater detention and treatment facilities. The configuration hasn't worked very well for stormwater or for recreation. The city would like to work with the homeowners association to put the stormwater facilities underground so that the surface of the lots will be well drained and available for year around recreation and open space for the neighborhood.

COMMENTS

This project would make the stormwater system and the surface park easier to maintain for both agencies. Cooperation and funding commitment from the homeowners association will be needed. Stormwater funding is not available.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Replace Diamond Glen Storm Pond

DESCRIPTION

Construct a stormwater treatment facility for the stormwater discharge coming off Park Street. This stormwater discharge is the second highest priority to get treated because of the size of the discharge and the pollutants coming off the state route and the old downtown area.

BACKGROUND

Many small stormwater facilities increase the city maintenance costs. Providing a commensurate amount of storage and treatment in the larger regional stormwater pond to the west would allow the land to be reclaimed for a residential lot, improve the neighborhood and lower maintenance costs.

COMMENTS

Legal and planning issues must be addressed before the city property can be sold.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Eagle Creek Pond to Park Improvement

DESCRIPTION

Construct a stormwater treatment facility for the stormwater discharge coming off Park Street. This stormwater discharge is the second highest priority to get treated because of the size of the discharge and the pollutants coming off the state route and the old downtown area.

BACKGROUND

After the construction of this facility, engineering staff observed that surface water infiltration rates far exceeded the delivery volumes associated with surface run-off generated within the sub-division. Because of this, the pond is dry throughout the year and can provide an excellent grass lawn open space feature to users of the city parks facility. The conversion of a gravel storm infiltration pond to a stormwater/park multi-purpose facility will improve storm water treatment, improve aesthetics, and provide additional recreation space for citizens.

Ginder Creek Trail and Site Restoration

DESCRIPTION

Design and construct a 1540 foot long 10 feet wide multi purpose trail and a small parking lot on Roberts Drive.

BACKGROUND

The city acquired the Ginder Creek parcel as a component to the Open Space Agreement signed in 2005. Initial planning efforts, work with the City Council, as well as public input has steered the Parks Department towards trail development along the Ginder Creek corridor. This area has historically been used for agricultural activities, but has since remained fallow, with the proliferation of invasive Reed Canary Grass, Evergreen Blackberry, and Scotch Broom. This trail will provide a north/south link from Roberts Drive to Morgan Street and provide the public the enjoyment of the natural area along Ginder Creek.

What is a matching grant?

A matching grant is a contingent grant awarded only if the receiving entity is able to put up (or independently raise) a sum equal to the amount provided by the granting entity.

Parks Comp Plan Update

DESCRIPTION

The City's Park Plan has expired. An update of the City's Comprehensive Parks, Recreation and Open Space Plan is needed for state grant eligibility towards trails, open space and park's infrastructure.

BACKGROUND

The last Parks Plan was developed by staff in late 2008. The Recreation and Conservation Office approved the plan and the city used the Parks Plan to support several grant applications and improvements throughout the city. Once the staffing level improves this Parks Planning update can be kicked off. It is expected that the city will need consultant assistance for about 50% of the park planning effort.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

TOTAL SOURCES	80,000		40,000	40,000			

Boat Launch Park Shoreline Stabilization

DESCRIPTION

Using boulder and plantings reinforce the shoreline to stop the bank erosion and protect the old growth trees along the shoreline.

BACKGROUND

The city many years ago stabilized the bank with wood retaining walls, rebar and logs. The logs bounced along the shore and only partially protected the bank. The logs were a maintenance problem and periodically broke loose causing a hazard on the lake. The wood retaining wall has deteriorated significantly. The rebar has been an ongoing maintenance problem and hazard.

COMMENTS

Once the Park Plan has been accepted by the Recreation Conservation Office this project will be eligible for state grant funding.

CAPITAL PROJECT COSTS	Total \$ 2019 - 2024	2019	2020	2021	2022	2023	2024

Shoreline Erosion

Exposed Roots

Rotten Wall

Leaning Tree

Cemetery

P5

New Niche Wall

DESCRIPTION

Install a niche wall for cremation remains in the cemetery 5 ft. high by about 24 feet long.

BACKGROUND

The existing niche wall is nearly all sold out. Many people do not want to purchase an entire plot within the cemetery and the niche would serve their needs. The niche wall preserves space within the cemetery. The price of the niches could be reassessed after the final expense of the project is known so that the city could recover their costs. The price of a niche right now is \$350 and the price of a plot is \$1500. The new wall would provide about 90 to 100 new niches.

COMMENTS

The Cemetery Board reviewed and approved this project and recommended that the Council add this project to the City's Capital Improvement Plan.

CAPITAL PROJECT COSTS	Total \$

Rehabilitate East Ginder Creek Property

DESCRIPTION

Remove cottonwood, maple, alder, blackberry, Nott weed, English Ivy along the east boundary of the property and revegetate with grass and Flowering cherry trees, maple, and dogwood. The initial effort will be to fall the trees, and deck the debris in a long pile to compost onsite and to spray invasive weeds and then seed the surrounding area back to grass. The trees should compost nicely within about 5 years. Once the limb have decomposed, the organic matter will be spread and the area reseeded to lawn and trees planted.

BACKGROUND

A major portion on the east side of the property has been overtaken by invasive weeds and invasive hazardous trees. The cottonwood trees have grown to a hazardous size and present a threat and hazard to the homes and backyards to the east as citizens walking on city open space.

COMMENTS

This project is to fulfill the city's role in good stewardship of the public land.

Replace Reserve Engine (1986)

DESCRIPTION

Replace reserve engine # 981 and extend the service life of front-line engine.

BACKGROUND

Engine 981 is a Pierce brand engine custom built for Kent Fire in 1986. The city later purchased this engine used. It has more than 155,000 miles on the odometer and 12,000 hours in use.

COMMENTS

Replacement of the Fire Engine and Station will utilize REET at 16.27% and Fire Impact Fees of 83.73%.

CAPITAL PROJECT COSTS	Total \$ 2019-2024	2019	2020	2021	2022	2023	2024

Engine #981

Replace SCBA and Defibrillator

DESCRIPTION

Firefighter breathing apparatus (SCBA) becomes unserviceable due to age and parts availability. Factory maintenance for Medtronic Lifepak 12 defibrillators is no longer available beginning in 2020.

BACKGROUND

Self Contained Breathing Apparatus is required for firefighters to enter hazardous atmospheres. Replace 20 SCBA purchased new in 2001 And updated in 2007 by Mountain View Fire and Rescue. Cost projection is \$11,100 per unit including the required spare air bottle.

COMMENTS

Manufacturers support for Lifepak12 defibrillators will end in 2019. The city will utilize REET at 16.27% and Fire Impact Fees of 83.73%.

Replace Primary Fire Engine (2000)

DESCRIPTION

This project replaces the newest engine in the fleet with a customized pumper.

BACKGROUND

This vehicle experienced a major mechanical malfunction during 2010 annual service testing. Replacing the former reserve apparatus extended the useful life of this apparatus by placing it in a reserve status.

COMMENTS

The service history of this apparatus suggests early replacement is necessary. Replacement of the Fire Engine will utilize REET at 16.27% and Fire Impact Fees of 83.73%.

Replace Aid Car (1994)

DESCRIPTION

Replace Aid 98 to provide reliable patient transport capability.

BACKGROUND

Aid 98 is a 1994 Ford purchased by city surplus from King County Medic One. This vehicle shows over 143,160 miles. This is the only aid car owned by the city and maintenance costs are expected to increase with age in continued front-line use. Replacement of the Aid Car will utilize REET at 16.27% and Fire Impact Fees of 83.73%.

CAPITAL PROJECT COSTS	Total \$ 2019-2024	2019	2020	2021	2022	2023	2024

TOTAL SOURCES	225,000					225,000	

Lawson Hills Fire Station, Vehicles & Equipment

DESCRIPTION

Provide a satellite fire station sited and equipped to enhance fire and emergency medical service delivery in the community. This initiative begins with a site location study, proceeds to construct the station, and ends with a complement of essential equipment in service at the new facility.

BACKGROUND

Service needs within the community will change with growth. This project seeks to determine the optimal location, build approximately 8,000 square feet of fire station at \$800 per square foot within the next six years at a cost of approximately \$7,437,276 including equipment. Additional growth related equipment of a Fire Pumper, Aid Car, Brush Truck, & Support Vehicle are included in the estimate. Minimal land costs are also projected in this request.

COMMENTS

Financing for this project will be financed by growth, with 95% developer responsibility and 5% from Fire Impact Fees.

CAPITAL PROJECT COSTS	Total \$ 2019-2024	2019	2020	2021	2022	2023	2024

Patrol Car Replacement Plan

DESCRIPTION

The City has created and maintained a vehicle replacement plan with planned expenditures for patrol cars in an effort to replace aging patrol cars before becoming too expensive to maintain and to assure officer safety.

BACKGROUND

This rotation plan will allow the force to spend more time on the street and less time delivering them for repairs and maintenance.
