City of Black Diamond Property Taxes

Property taxes make up 57% of the General Fund's tax revenue and estimated to generate \$1,889,434 in revenue for the city. All revenues from property taxes go directly to the General Fund to support public safety for police, fire protection and emergency services. Black Diamond depends heavily on property tax collections, as the city has a small commercial base for generating sales tax revenue.

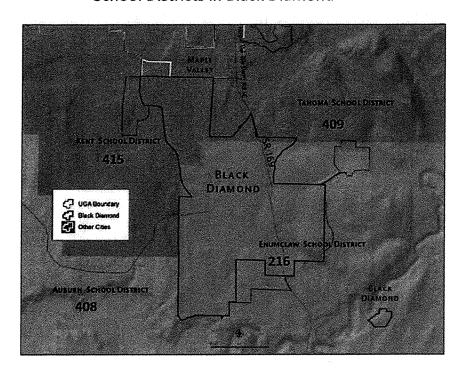

In Washington cities such as Black Diamond, property tax increases are limited to a 1% total dollar annual increase per year unless voters approve a lid-lift or larger percent increases plus any property tax from new construction. King County sets assessed valuation on property and calculates levy rates. Each taxing authority receives a portion of the tax amount, which King County collects and then passes on. In Black Diamond, there are four school districts with separate rates, so depending on which school district the property is in, the taxing amount will vary.
